

K-LOVE is heard in my area on 90.7. It is the only station my family listens to in our cars and home. K-LOVE provides much needed Christian programming in a format that never concerns me as a parent if my children listen. If the proposed rule changes for LPFM are enacted and K-LOVE is no longer available to us it would be impossible to replace. K-LOVE brings listeners to Christ everyday. That ministry is vital to our community and family. It is not in the best interest of the public to make changes that would not allow K-LOVE on the air.
